JONAS JASON BONDOC

City of San Fernando, Pampanga | 09157759027| jjbondoc07@gmail.com | jonasbondoc26.github.io/web-portfolio

EDUCATION

Holy Angel University — Angeles City, Pampanga
Bachelor of Science in Information Technology, Major in Web Development — Expected 2027

EXPERIENCE

Cloudstaff — Skyclub CRK99
Endpoint Engineer Trainee (On-the-Job Training) — Jul 2026 – Oct 2026

- Part of a team refurbishing 1,500 PCs for deployment: sanitized drives with ZeroTrace, imaged systems with FOG Project and installed Linux Mint.
- Verified hardware specifications in the Scrutinizer system, ran QA on 117 PCs in one week and troubleshot faulty units.
- Built an Excel assessment record for 584 PC units to track inspection results and deployment readiness.

Galang Dental Center — City of San Fernando, Pampanga
Freelance Web Developer (Direct Client) — Nov 2025 – Mar 2026

- Designed, built and maintained the clinic's WordPress site, optimizing mobile responsiveness and performance.
- Implemented local SEO with Rank Math SEO and Google Search Console, bringing the site to first-page search results.

DiaWeb – Diabetes Patient Management System
Full-Stack Developer (Direct Client) — Feb 2026 – Mar 2026

- Developed a diabetes platform with glucose tracking, medication reminders and IoT alerts (JavaScript, Firebase, Arduino), with ERDs and user guides.
- Built real-time notifications that sync web alerts with physical buzzer devices, improving alarm response speed and reliability.

PROJECTS

SmartToll Route Planner (Capstone) — *React, React Native (Expo), Laravel, MySQL, Leaflet*

- Builta Laravel REST API behind React web and React Native mobile apps covering nine Luzon expressway systems.
- Modeled 95 toll plazas and 2,311 TRB rates; compares up to four routes with per-plaza fees and RFID balance checks.
- Added GPS navigation with toll plaza alerts, Google Sign-In (Sanctum) and an admin toll matrix with CSV imports.

KOMA PH E-Commerce and Order Management System — *MongoDB, Express, Vue, Node.js*

- Built an online store and order system for a Pampanga streetwear brand, replacing manual order tracking.
- Implemented cart, wishlist, COD/GCash/bank checkout, an order-history dashboard.

SKILLS, CERTIFICATIONS & LANGUAGES

Languages & Frameworks: JavaScript, TypeScript, PHP, Python, Java, Dart, HTML, CSS; React, React Native, Vue, Angular, Node.js, Express, Laravel, Flutter, Tailwind, Bootstrap

Databases & Platforms: MySQL, MongoDB, Firebase, WordPress, AWS (Cloud Foundations), Netlify, Arduino

Tools: Git, GitHub, VS Code, Figma, Canva, Google Search Console, Rank Math SEO, Claude Code, MS Office, Power Automate

IT & Hardware: PC assembly and troubleshooting, laptop disassembly, disk sanitization (ZeroTrace), system imaging (FOG Project), Linux Mint, hardware QA

Certifications: AWS Academy Graduate – Cloud Foundations (2026); freeCodeCamp: Responsive Web Design, JavaScript Algorithms and Data Structures, Back End Development and APIs, Front End Development Libraries; Cisco: JavaScript Essentials 1, Introduction to Networks, Endpoint Security; MongoDB: CRUD Operations; HubSpot: SEO I & II, Digital Marketing, Content Marketing, Digital Advertising; Simplilearn: Introduction to Figma, Programming Using PHP, Graphic Design & UI/UX; Anthropic: Claude Code 101
